Dear Sir or Madam,

**EXPERIMENTAL TRAFFIC REGULATION ORDER, UNITED WAY BUS GATE
WESTON HOMES COMMUNITY STADIUM, COLCHESTER**

You may remember that I wrote to you in October 2008 regarding the implementation of an experimental Traffic Regulation order which saw a permanent barrier erected at the bus gate in United Way.

This Order is due to expire on the 6 May 2010. To ensure that the barrier remains in place until cameras are installed a temporary road closure is being processed which will come into force on the 7 May 2010 for a maximum of eighteen months. As before access will still be maintained for cyclists and pedestrians but vehicles will not be able to use United Way as a through route to Boxted Road.

Although new digital enforcement cameras are in their infancy technology is moving at a rapid pace and the Network Management Team at County Hall is working hard on resolving any problems which have come to light during the pilot schemes.

Funding will not be available for this location during this financial year but the intention is to install the cameras by August 2011. The Traffic Regulation Order for the actual bus gate will be sealed this August due to legal constraints but will only be made operational in August 2011 to tie in with the above.

I would be most grateful for your support for this closure and would hope that it continues to address your concerns successfully.

Yours sincerely

Vicky Presland
District Manager
