Bulk Oil orders

The last date for ordering bulk oil is 8th April and delivery will take place within 5 working days after the 8th. From past experience it is normally well within the 5 days. Orders need to be made in the Community Shop.

Be vigilant and report

Last Monday afternoon the gypsies cut the telephone cable in Hundred Lane and tried, but failed, to pull the cable out. This caused a lot of damage and it took BT about 48 hours to replace the cable and repair the lines. I talked to the repair man who said this is now very common and that frequently they come back after a couple of weeks and try again, because it is much easier to pull out newly laid cable, but they are also likely to try other nearby locations. The moral is to try to get people to watch for any suspicious activity! I confess that I didn't realise just how many households depend on their phone as a lifeline and so how serious this potentially was.

Of interest

Ten days ago Reeman and Dansie auctioned the effects of a man from Horkesley who had a fantastic collection of local memorabilia including an album of old postcards of Botted.

The last two bidders were internet bidders and so we don't know who bought it. A great shame because there are also several other lots with strong local interest.
